TALBOTT T RANGE AUTOMATIC

**3 Year
Warranty**

Terms & Conditions apply

The Talbott T Range Automatic units are available in three different sizes: the Talbott T3/A, T5/A and TM/A. They are ideal for the safe, clean and efficient combustion of extracted or shredded wood waste for factory space heating.

The Talbott T Range Automatic series of biomass air heaters are fully automated systems with a range of advanced product features, including:

- 100kW to 300kW Heat output options
- Automated systems
- Hot air units for simple factory space heating
- Practical, low-maintenance design
- Robust construction with ceramic-lined combustion chamber
- Storage bunkers can be manually or automatically fed via transfer system
- Bespoke fuel storage solutions specified to suit customer requirements
- Heater and bunker available separately if required
- Heat dumps, ducting systems, larger capacity silos and feed mechanisms available for all units
- Clean Air Act exempt within smoke control areas

- ✓ Sawdust
- ✓ Shavings
- ✓ MDF
- ✓ Softwood
- ✓ Hardwood
- ✓ Chipboard
