About CK Services 1990 Ltd.

We cater for a vast and varied range of businesses – from simply supplying a Reconditioned Heater for a client on a small budget, to designing, supplying and installing complete Evaporative Cooling & Heat Recovery systems.

Our Family run company have been experts in the Commercial Heating, Evaporative Cooling, Ventilation and Mechanical Services trade for over 50 years, spanning 2 generations and providing a full turn key HVAC service from a small factory to many larger retailers with outlets and stores Nationwide.

We specialise in all aspects of LPG/Natural Gas and Oil/ Kerosene heating installations including providing site surveys, heating maintenance contracts & spare parts supply and are an approved stockist and supplier of new and reconditioned heaters from all of the main manufacturers. We're also proud to be the UK's biggest

supplier of reconditioned heaters. We also provide a National after-care reactive breakdown and maintenance service. Our qualified engineers are fully trained and certified to work on access equipment and the key to our long standing success is down to good communication and providing excellent customer service at all times.

Installation of the UK's largest floor standing Air Rotational heater at Senator International

We provide new and reconditioned Suspended and Floor mounted gas and oil heaters Nationwide

State of the art Mitsubishi Air Conditioning Installation for Benson For Beds based in Oldham

Evaporative Cooler Design & Installation at St Willibrord's Primary School in Manchester

Industrial, Commercial & Horticultural Heating.

- **Warehouse Heating** – CK Services provide fully efficient Warm air and Radiant heating solutions for industrial warehouses of all sizes throughout the UK.
- **Retail Showrooms & Outlets** – Heating and Cooling solutions, plus reactive maintenance and servicing.
- **Garages** – Energy efficient Heating and Cooling solutions for the showroom as well as the workshop/ repair area tailored to your specific requirements.
- **Garden Centres** – Complete Heating Solutions for greenhouses, nurseries and horticultural buildings.
- **Sports Centres** – Energy efficient Cooling and Heating for sports halls, gyms and trampoline parks.

New & fully Reconditioned Warm Air Heaters.

CK Services are the UK's biggest supplier and installer of both New and Reconditioned Warm Air Heaters – offering highly competitive pricing on all New Heaters from the leading manufacturers.

We also provide a comprehensive refurbishment service and overhaul of older heaters – saving you money on buying a complete new system.

All refurbished heaters we offer are fully stripped, cleaned, repainted and tested in our factory. Fitted with new parts and come with a full warranty due to the high standard that we rebuild them before sale.

Please visit our online store or contact us for any specific heating requirements you may have.

Complete Cooling Solutions – Evaporative Coolers, Commercial Air Conditioning & Heat Recovery Installation & Services.

CK Services provide complete energy efficient Cooling Solutions for warehouses, garages, offices, schools, bakeries and many other types of commercial building.

A modern Air Conditioning system is far more energy efficient than they used to be, offering both Cooling and Heating from the one source. Quiet in operation, easily hidden away from view in either ceiling, wall or ducted formats, we can help you to choose the very best air conditioning system for your workplace.

Evaporating Coolers offer a much more efficient and cheaper solution to cooling larger spaces more effectively than with air conditioning systems, thus delivering a much more comfortable environment.

Evaporative Air Cooler vs Air Conditioner

80% Cheaper To Install **15% Energy Consumption**

With a team of fully professional installers Nationwide, we offer a complete design, installation and service for all types of Air Conditioning, Heat Recovery systems and Evaporative Coolers from all the leading manufacturers.

New Warm Air Heaters supplied & installed

Warm Air Heaters offer a cost effective solution to heat many types of industrial and commercial building and are available in both suspended and as floor mounted Air Rotational Heaters. Available in a range of fuels such as Natural Gas, LPG and Oil, CK Services are an approved supplier for all of the major manufacturers.

Radiant Tube and Plaque Heaters

Radiant Tube and Plaque Heaters provide an efficient, space saving heating solution. Ideal for most commercial buildings including garden centres, garages, aircraft hangers and retail showrooms, they can be used to 'spot heat' areas thus saving money on running costs. Available in both Natural Gas and LPG formats.

Commercial Boiler Systems

From a wall mounted condensing state of the art gas boiler, to large cast iron floor mounted oil boiler CK Services can provide a full service from the initial design to installation and commissioning and modern controls. We provide spares for boilers, a fitting service and also modifications to existing systems.

Portable Heaters and Marquee Heating

Portable and Marquee heaters are an ideal solution for greenhouses, nurseries and non permanent buildings such as marquee's and building sites for drying building materials as part of a first fix solution. We offer supply, installation and maintenance for all types of portable heaters.

Heating Spares and Ancillary Items

We can also provide Heating Spares for all types of commercial Heater and boiler. Control Boxes, Gas Valves, Air Pressure switches, Oil pumps, Central heating pumps, Mono pumps, Oil lifters, Solenoid Valves, Nozzles, Gas injectors, Flue pipe and Complete burner units to name but a few.

Service and Maintenance - Nationwide

Regular service and maintenance on Commercial and Industrial Heating and Air conditioning systems as well as certification is a legal requirement in the UK. We also provide a full service with regards to yearly servicing and reactive maintenance on all types of HVAC equipment.

Ductwork, Ventilation and Heat Recovery

CK Services offer a full design and installation service for all types of ducting - including Ventilation and Heat Recovery systems including square ducting, spiral wound, flexible and insulated ducting, duct socks, fire dampers, inspection doors, protective cages and welding extract systems.
